Mobile healthcare solutions

Vanguard Healthcare Solutions provides flexible clinical capacity solutions to acute hospitals across the UK and internationally. Its mobile care facilities allow clinics to provide the highest level of patient care whilst maintaining control of the clinical pathway within their own healthcare estate.

Over the past 20 years, Vanguard has supported more than 100 UK hospitals and over 275,000 procedures have been conducted in their facilities.

Building the best

- Shortlisted for the Product Innovation category at the IHEEM Awards 2018

Vanguard are a truly differentiated provider of healthcare solutions to NHS trusts and healthcare organisations around the world. We look forward to continuing to support the growth of the business going forward.
